Registration of economic operators in foreign commerce throughout the EU

Since January 1st, 2010 in the EU-zone no customs clearance is possible without an **EORI-number**. The registration is effected by the authorities of your domestic country (usually by the customs authorities). The application for an EORI-number has to be made itself by every economic operator, before starting customs relevant activities. Further information and the application form can be found on the homepage of your customs authorities.

Delivery terms: DDP (delivered duty paid), untaxed
